## **Goals**

The ACDA has worked diligently to secure other sources of funding and leveraging opportunities and will continue to do so. ACDA staff will continue to competitively seek other funding through New York State as well as additional Lead Paint Abatement funding.

The creation and rehabilitation of safe, affordable housing is a priority for the ACDA. Also, the ACDA is always working to eliminate fair housing barriers. The recent creation of the Neighborhood Revitalization unit is proof of this. The goal is to revitalize low to moderate income and troubled areas into functional, successful neighborhoods. A major outcome of all of ACDA's efforts will be increased fair and affordable housing for City residents.

The ACDA will continue its careful review of the programs and subrecipients that receive CDBG funding each year in order to continue its Federal compliance requirements.

The Community Development Agency will work and coordinate with other City departments such as : the Albany Housing Authority, the Building and Codes Department, the Office of Equal Employment Opportunity and the Neighborhood Revitalization unit in order to bring about safe, affordable, and quality housing opportunities for City residents.
